COLLEGE CONSORTIUM

Maryville College is a member of the College Consortium that offers on-line courses that originate from an approved list of institutions. Maryville College has identified selected courses offered through the consortium that fulfill the requirements for specific Maryville College courses. During May and Summer terms 2019, students may enroll in chosen courses as listed on the College website (See <https://www.maryvillecollege.edu/academics/recourseses/summer-courses-at-mc/>) under Summer Term. Credit earned through the consortium is transcribed as Maryville College credit and grades calculated in the Maryville College GPA. Please see the specific refund policy for these courses below.

Refund policy for college consortium courses

The online courses offered through the College Consortium are currently priced the same as summer school courses. Payment in full is due three business days before the first class or the student will be dropped from the course. Additionally, no tuition refunds will be provided after attending the first class.

GRADE POINT AVERAGE (GPA)

The grade point average (GPA) for a semester is computed by dividing the total number of quality points earned by the number of credit hours for which quality points are earned during the semester. The cumulative GPA is based on all quality points earned and all credit hours for which quality points are earned at Maryville College. A course may be repeated once to replace a previous grade. A second course repeat may replace a grade only with permission of the Dean or Associate Dean of the College. Course grades earned in repeated attempts beyond these limits may not replace previously earned grades and the grade earned in each repeat is included in the GPA calculation. With the exception of approved courses offered through the College Consortium, courses completed satisfactorily at other institutions may count toward graduation requirements, but they are not counted in computing the GPA. Grades earned for approved courses in the College Consortium are transcribed as Maryville College courses and are included in the calculation of the Maryville College GPA.
