## Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- >> [Teachers Prepared by Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### [What are CIP Codes?](#)

Do participants earn a degree upon completion of the program?

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Clinical experiences for teacher candidates are specifically designed with the above factors in mind. During the 4-year program, candidates observe and/or teach in a variety of school settings (public/private, county/city). They are also exposed to students with various needs, including disabilities and/or limited English proficiency in K-12 classrooms in both classroom settings and after-school programs.

## Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

- >> [Review Current Year's Goal \(2019-20\)](#)
- >> [Set Next Year's Goal \(2020-21\)](#)

## Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in mathematics in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

Our goal is to have at least four candidates in the math with licensure program for AY 2019-20 and AY 2020-21.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

We prepared no teachers of mathematics in AY 2017-18; therefore, no goals were set on the 2019 Title II report. In AY 2018-19, we graduated one candidate in the field of mathematics and had three candidates in the program.

**5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:**

1) Collaboration with the Division of Mathematics to increase awareness of the math with licensure program. 2) Inviting current math with licensure candidates to speak with potential students at recruiting events. 3) Worked with Admissions to bring a group of 8th grade students to campus for a day. Eighth graders observed college classes and met with current licensure students, including those in math. 3) Partnering with three local high schools to create a dual-enrollment education course. This would provide opportunities to recruit students into high need areas.

**6. Provide any additional comments, exceptions and explanations below:**

The Divisions of Education, Mathematics, and Sciences applied for a STEM grant that targeted students majoring in STEM fields. We did not receive the grant but plan to re-apply.

## Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in mathematics in 2019-20? If no, leave the next question blank.

- Yes  
 No

8. Describe your goal.

Our goal is to have at least four candidates in the math with licensure program for AY 2019-20 and AY 2020-21.

## Set Next Year's Goal (2020-21)

9. Will your program prepare teachers in mathematics in 2020-21? If no, leave the next question blank.

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes  
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes  
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes  
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All candidates complete a 3-credit hour course (EDU 302 Educational Technology) designed to prepare future teachers to integrate instructional technology into the classroom. Emphasis is placed on preparing candidates with the necessary competence and confidence to develop and/or select materials to use with a variety of technology-based instructional tools. By the end of the course, candidates should be able to meet educational technology foundations for all prospective teachers as set forth by the International Society for Technology in Education (ISTE). Additionally, EPP faculty/instructors model technology in all major courses and in core curriculum courses. Using Google's GSuite for Education, candidates practice and utilize skills that encourage collaboration, creativity, and critical thinking. Becoming Certified Google Educators is a candidate requirement of EDU 302 Educational Technology. Candidates become proficient users and designers of tech-infused lessons, feedback, and assessments. This course also prepares candidates to build, maintain, and publish individual Google Sites that showcase artifacts collected throughout their program preparation. All candidates are introduced to data analysis in STA 120 Statistics (first year or second year) and complete a data analysis project (fall semester of third year) in PSY 315 Human Thought and Learning. In EDU 351/352 Senior Study I and II, candidates prepare for and complete the edTPA portfolio. The edTPA is a performance-based, subject-specific assessment. The edTPA process requires candidates to demonstrate readiness to teach through lesson plans designed to support their students' strengths and needs; engage real students in ambitious learning; analyze whether their students are learning, and adjust their instruction to become more effective. Teacher candidates submit unedited video recordings of themselves at work in a real

classroom as part of a portfolio (scored by highly trained educators). Each of the skills emphasized in the edTPA portfolio rely on candidates' proficiency in using tech tools (i.e., databases, interactive forms, video capture) to enhance the final product. Universal design is specifically addressed in EDU 301/303 Models of Instruction, EDU 305 Classroom Management, EDU 302 Educational Technology, EDU 411 Educational Assessment, EDU 412 Strategies for Diverse Learners, PSY 334 Culturally Diverse and Exceptional Children, and in various methods courses. Students learn to design instruction that is inclusive, differentiated, and engaging to all learners. Classroom design is explored as a means of meeting diverse learning needs. Various technologies that enhance the learning experience of diverse learners are examined. Special topics address working with the English Language Learners, understanding Gardner's model of Multiple Intelligences, utilizing research-based practices, and discussing diverse field experiences.

# Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

In PSY 211, candidates choose, from a variety of sites, where to spend the semester working. Many opt to work with the Maryville City Schools Family Resource Center's Homework Assistance Program or Coulter Grove Intermediate School (resource) where they are exposed to students with varied needs, including disabilities and/or limited English proficiency. Other PSY 211 sites typically include John Sevier Elementary School (Kindergarten classroom), Boys & Girls Club, and Fairview Methodist Respite (event for children with special needs and their siblings). One specific activity used in Music Education is a silent-learning scenario. Basically, this involves the candidate teaching a music lesson without the benefit of verbal instruction. (Candidates have to rely heavily on modeling and kinesthetic demonstration.) The objective is to encourage the candidate to consider different ways to connect with students, beyond verbal, and to open up their mind to the possibilities inherent therein. Instructors point out to the candidates during this activity the potential to connect with students of differing abilities (ELL, etc.) by eliminating the verbal from their instruction.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

During PSY 334, candidates work with K-12 students and their IEP goals but do not serve as a member of an IEP team. In EDU 412, a local (and current) SPED teacher provides instruction on the IEP protocol. Candidates research the IEP process from the roles of parent, teacher, and administrator.

#### c. Effectively teach students who are limited English proficient.

Much of the content in ENG 312 is related to teaching English to LEP students. Additionally, ENG 312 addresses methods and considerations for different learning environments for ESL. For example, candidates are required to research problematic conversation points related to Grice's Maxims of Conversation. In doing so they provide examples about how flouting conversation maxims can affect the meaning of one's words greatly, especially in an L2. In EDU 412, candidates receive direct instruction on the fundamentals of students with limited English proficiency, along with in depth exploration of the latest research based instructional practices. Candidates create and model an ESL lesson plan for their grade level/subject area, including support with differentiated instruction techniques.

### 2. Does your program prepare special education teachers?

- Yes  
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities*

c. Effectively teach students who are limited English proficient.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Maryville College is a nationally-ranked institution of higher learning and one of America's oldest colleges. For more than 200 years, Maryville College has educated students to be giving citizens and gifted leaders, to study everything, so that they are prepared for anything — to address any problem, engage with any audience and launch successful careers right away. Located in Maryville, Tennessee, between the Great Smoky Mountains National Park and the city of Knoxville, Maryville College offers nearly 1,200 students from around the world both the beauty of a rural setting and the advantages of an urban center, as well as more than 60 majors, seven pre-professional programs and career preparation from their first day on campus to their last. Today, our 10,000 alumni are living life strong of mind and brave of heart and are prepared, in the words of our Presbyterian founder, to "do good on the largest possible scale." Maryville College has been listed 11 times as a Top 10 Southern Region liberal arts college by U.S. News & World Report. In their "2020 Best Colleges" guidebook, Maryville College was ranked as the No. 1 "Best Colleges for Veterans" in the South and ranked third overall in the category of "Best Undergraduate Teaching" in the South. In its 2020 "Best Colleges in America" ranking, Niche recognized Maryville College as No. 3 in "Best Liberal Arts Colleges in Tennessee." Traditionally there has been a significant number of first-generation college students enrolled at Maryville. Over 90% of our students receive some type of financial assistance, with almost 47% of those eligible for Federal grants. Teacher education at Maryville College is an interdepartmental function, the responsibility of the college as a whole rather than a single department. In the words of the TN Educator Preparation Provider Site Visit Report (January 10, 2020), "The Maryville College Education Preparation Program (MC EPP), Division of Education has a deeply rooted tradition of producing high quality teachers that serve throughout Blount County and the greater East Tennessee region. Program completers are considered to be well-trained and effective educators who come into classrooms with knowledge of current research-based, best practices along with the ability to relate to and engage students academically and as mentoring role models. Interviews with clinical mentors and LEA administrators also confirmed that program completers are equipped with high levels of professional dispositions that contribute to exemplary educators." We support our candidates in ways that go beyond teaching; modeling for them the importance of relationships. Again using words from the TN Educator Preparation Provider Site Visit Report (January 10, 2020), ". . . continuous monitoring of teacher candidates throughout their preparation goes much deeper than tracking academic progress. Supportive faculty and staff in the division are relationally invested in the success of each individual student. Dedicated faculty and staff 'go the extra mile' to assist students in overcoming the inevitable obstacles that come up along the preparation pathway." The Division of Education was recently recognized by Colleges of Distinction for graduating "future educators who are not only knowledgeable, but also efficient mentors who provide empathetic support and novel teaching methods."
